

## Ingeniería del Software (ISW)

### EVALUATION RUBRIC OF THE DELIVERABLE 2 (FINAL)

#### A. Procedure and Programming:

<b>Architecture</b>	All aspects of architecture have been correctly implemented: graphic user interface and service calls  <i>(0.25 points)</i>		The application does not program the graphic user interface.  <i>(0 points)</i>
<b>Answers to questions</b>	The student answers correctly the questions about the architecture of the application, the management of tools, and / or details of implementation  <i>(0.75 points)</i>	The student shows that he has knowledge about the architecture, implementation or tools but does not respond with precision to some of the questions  <i>(0.25 points)</i>	The student does not respond correctly to any of the questions about the application  <i>(0 points)</i>

## B. Graphic User Interface Functionality

Use case	The use case works correctly using the GUI	GUI and Use Case presents some error, partially working	Graphic User Interface is not implemented
User signup	1.25 points	Between 1 and 0.25 points	0 points
Login User	0,75 points	Between 0.5 and 0.25 points	
Login empleado	0.5 points	Between 0,4 and 0.1 points	
Rent a Scooter	1.5 points	Between 1 and 0.25 points	
Return a Scooter and Incident Registration	2 points (1 + 1)	Between 1.75 and 0.25 points	
Listado de las rutas realizadas	1.75 points	Between 1.25. and 0.25 points	
Register Station	0.5 points	Between 0.4 and 0.1 points	
Register Scooter	0.75 points	Between 0.4 and 0.1 points	

**\*NOTE:** if there are evidences that a student has not partaken in the development of the project, the evaluation will be considered a failure (0 points), because evaluating the skills acquired by the student will be not possible.
